

Firstly, writing in glitter pen sucks and it makes me feel like a kid, WTF. Even my handwriting looks like some 5th graders. And Secondly, I decided to change colours every once in a while, dafuq is wrong with me! But now I don't know when to change. OMG I'm really hating on my handwriting right now. But it's OK you have to deal with it not me

I LEGIT dont know what I am going to write and what you'll be reading. So sit tight and be prepared for the worst. I really hope you like reading and I hope you made a smart decision of reading later on after your party or whatever it is you're doing with them on this special day. Because oh boy! This might take a while

So for days, even weeks I guess all I thought about was what can I possibly give that is worthy, before I leave and I swear to God I couldn't figure it out at all, I mean I still dont think I did. Like I really wish someday I can actually give you something nice for a change. Maybe just maybe, once I'm back I'll try and put in some effort into your gifts, instead of a half assed letter like this one. I dont think it's remotely close to the things you've done for me for the past so many months. But anyway, here it goes

I couldn't decide if I should have given this to you on Valentines Day (which I'm not a huge fan of) or 5th of Feb (since it's 6 fkn months that we've been together "officially" and like what 9 months? "unofficially". FUCK. TIME FLIES! But again it doesn't matter WHEN I'm giving it to you what matters is that I am, because I absolutely suck at giving presents :)\nSO APPRECIATE

I've always found it so amusing we've known about our existence of one another for almost 4 years and never really spoke much the whole of college. I mean I literally saw you play almost all of your games, how weird is that we were there in almost every college, even outstation watching each other's game (me, enjoying it and you waiting for it to be done). We even started of engineering by going to the same college, like WTF.

AND it took us a pandemic to come together. Do you ever wonder if at all WE would have ended up together if at all there was no COVID? Like even a year ago you were with your ex (kind of) and me with Siddha and look at us now, head over heels in love with each other (well atleast I am). SO, should I be thankful for the pandemic or what? But that'll be like REALLYYY evil of me.

Okay I have no idea why I started typing nor do I know what it's gonna be about. And now I'm sitting here wondering what to say and just blabbering out stuff as always.

OMG SOOO, I was looking at my phone and I remembered how cringe I AM because I've starred a lot of your texts (ist reached 99 now because the past few months I've hardly done it) It was just in the starting few okay? So dont judge me for it. But, like a couple of those were just a reminder (before we started dating) it was when you spoke about her and things like that. I don't want to make this some sad letter, but I want to tell you everything. Once you said this

"I dont think I'll ever give that much importance to someone"

"I don't know if I can ever love someone like that"

So this was like one of the first times where I started to realise how nice of a person you're (also around that time I broke up lol) But later on it was like a reminder where I kept telling myself, okay hes probably never going to get over her XD WOW Im some paranoid fuck. First about your ex, then Nikita. FUCK. I've given you such a hard time man. WTF. After This was the corona paranoia but later I did not give two shits

AFTER ALL, I HAD TO COME SEE YOU :)

The first time I EVER came home was probably the first time I've ever lied to you and it's finally coming out in the open. Sp(Idk if you remember) when I said I'm coming to meet ayuti and like that only I'll come meet YOU. I WAS LYING! I didnt even meet her that day nad I really did not seem desperate about meeting you LOL FUCK. I was so embarrassed and I always thought I'll never ever tell you about it. I am STILL so fkn embarrassed about it but at least it's out in the open so yayyy. I literally came to Chin Lungs ONLY to meet you, I mean I don't think I had any sort of feelings for you at these times but I always found myself making stupid decisions and wondering why. So there's that, I AM a HOPELESS ROMANTIC and from the looks of it, you seem like one too(And that's what I call myself SO SUS! No making fun of it)

Now, Im looking through our chats and media to find something interesting I've sent ou an awful lot of ugly selfies ew. And our media is 1022 and NO NUDES. Im proud XD Also the first ever picture is Mr VChari's, NICE. I feel he also has a part because I wouldn't have come to cubbon park or ven lungs if hadn't forced so much(since you're so AMAZING at forcing people) My sarcasm doesn't seem so good without emojis. Even MIA, because that's how we started texting, oh and you getting MVP.

Okay, a lot of things I'll forever be grateful for of it and even if I ever get a chance to go back and change things, I probably would leave it this way because there's not one thing I regret which has led me to YOU. I LOVE You Gowtham.

I still so vividly remember the first time we kissed and how it felt and I couldn't believe it that I would have ever felt that way. I don't think I can ever explain how good you made me feel since the beginning and I really hope I can make you feel the same way someday

You do so much for me Gowtham and still do SO much, on a daily basis and I have no idea how to give back all this love and I really hope I figure it out. It literally kills me that I can't help you in any way when when you struggling so much EVERY FUCKING DAY. I'm so sorry :\

BUT,

Thank YOU, for making me believe in things again

Thank YOU, for making me happy

Thank YOU, for always being there

Thank YOU, for making me feel like I deserve love

AND

Thank YOU FOR saving me from my OWN SELF

And just because I keep thanking you, doesn't mean it's the end of it. But instead I want you to know that if you can be the reason for such a HUGE positive change in someone else's life, PLEASE believe in the fact that you can save yourself too. I know you will.

I love you and I'm thanking you doesn't mean it's even but just a reminder that you help me out and deserve to be appreciated. And by thanking you is the least possible way I can ever show it

I really for the love of God can't believe I came to Sharad's farmhouse with you and drank with a lot of strangers. WOW. The things we do for LOVE. AND YOU LET ME DRIVE YOUR OCTAVIA, THAT TOO WHEN I WAS DRUNK, Dafuq Lover Boy!!

I actually can't believe a lot of things that has happened. I'm sometimes still shocked with the fact that you even like someone like me. And go on on so many long drives with you, so many. I don't think I spent so many hours with ANYONE at all as much as I spent with you in such a short period of time. And I am craving for so much more. Those times at the dam and walking all around with you, FUCK what have you done to ME! I even snuck out of the house, slept in the car. SHIT. We are lucky Nothing happened. TOUCHWOOD. Finally the sneaking in started. OH GOD, you have no idea how much I love hugging you and sleeping. I used to always wait for those days.

The planned "days", Wednesdays and Saturdays. And other random days, drunk and sober ones and what not. There's literally no way I can jot down every single memory and how all of it felt in such less time. There are at least 1000 of them. ALL those small ones yet so significant that it made my day. Every time we've hugged and the times we had a little longer and tighter.

All the times I've made eye contact and I don't think I can ever explain what that does to me. Every single time I hold your hand, I don't think I've felt safer.

Every time we've kissed, it's not even an exaggeration when I see this, but it feels as though time has actually stopped. I really wish I could make time stop when I'm with you.

I'll never be able to figure out, how in the world do you have such a strong hold on me. And the beauty of it is, I'm not even scared, in fact, it makes me happy that I am lucky enough to experience these emotions because of you. You make me forget the whole world and all my problems. Even though you make me feel like an escape from reality, you're the reality that I'll embrace with open hands and never run away from it. You are the reason for a lot of changes in my life, possibly the only ones

I am happy to accept and live with. Okay, it's established that I suck at writing and it's when I try doing it past midnight. So there's gonna be a hell lot of mistakes because I don't even know what I've written and if I start reading it I know I will rip it apart and never give it to you

Halfway through, I will try to talk about our time together now I'm like which one do I even write about because there are so many running in my head right now. Even just watching TV sitting next to you is one of my favourite things or even the car driving around and being able to decide where to go. All of it. You just being around me is probably the only thing I ever want, I mean we don't even have to do many things or it doesn't matter whatever we're doing. Just being there with you is the most favourite thing in the whole wide world. Wow, I get too carried away and start saying cheesy thing and okay I've written a lot of shit.

But truth to be told you are the most favourite human being in this whole wide world and I am so fkn glad to have found you and I promise to never ever let go off you.

So instead of talking about all the amazing things which have already happened let's really talk about you and what you're gonna be doing. Firstly please PLEASE STOP putting yourself down. Stop your way better than you think. You REALLY don't deserve the shit you give yourself every fkn day. Just stop doing this, and things will automatically start getting better for you

Respect yourself, you need that and stop hating your life so much, it's not so bad. Trust me things could have been much worse you are like one of the nicest person I have ever met in my life and I think for that at least you deserve to be happy. Because it's not easy to be nice whilst struggling so much on the inside every day. You're so selfless and give so much to everyone around, you put in so much effort for every thing you do, and I really appreciate it, even though I never see it. FOR REAL cut yourself some slack and start having some fun.

YOU'RE 23 and life's not waiting for anyone. Have fun in whatever you do and don't ever give up on yourself because good things take time and there is something good really waiting for you.

All you've got to do is take a deep breath and let it go. Just stop holding on to this bad thought it's not worth it. LET IT GO

Starting right now, this very second promise me and yourself that this year, all you're going to do is **FOCUS ON YOURSELF**. That's going to be your aim. **FOCUS ON YOURSELF** and let every thing else go. Take care of your mental and physical health. Just trust me and give at least 3-6 months only for your betterment, and even then if you don't see any change or nothing good coming out of it, you can do whatever the fuck you want. This is the only thing I am asking, every decision you ever make from now on, even the **SMALLEST** fucking thing like "what you want to eat" just do it for yourself. Your whole life is ahead of you and this is just the beginning of it.

Your choices from this very moment will decide what kind of person you're going to be. And keep this in mind, if you want the world to be a better place you need to first fight the demons within yourself.

So starting today, I want you to work on yourself Gowtham. You don't have to do anything you dislike. It's all the small things it's going to help you, like wake up early, go to the gym and **PLAY YOUR FUCKING HEART OUT!** You don't even have to go to your office right away if you don't feel like. Don't have to listen to what we

all have to say. Hear us out and do whatever your heart says at the end. You know yourself better than all of us. It's okay, even if you take years before you decide to start working, just work on yourself, first, get your shit together, take your own time to do all of it. Whatever you decide, first know that I am right, you are with you, by your side, supporting your decision.

But first please, think about yourself *ONLY*, at least for the next few months. You know your struggle, stop getting lost in it and spiralling around and get it together. Just know that I have faith in you and you will come out fit as a much stronger and better human being, you need to just trust yourself.

I really hope you consider this and start giving your every thing into it. I can go on and on about this, but it's going to make a difference only if you start taking some action and start doing something. But don't ever forget to be happy and have fun because at the end, that's what everyone is aiming for to be happy and have a peace of mind.

So this been said and done, I really hope 2021 is the year you start flourishing and being genuinely happy with the life you made out of yourself. We had all a time for almost a year. Eight or hearts out, had or fun, got drunk several times. Did every thing we possibly could have, during a fkn pandemic and I don't think anyone could have been as lucky as us.

TOUCHWOOD

So there's that and no one fucking says that's got to stop. With that, start keeping yourself busy by doing the things you love. PLEASE do not give up on this. I keep saying all these things to myself as well. It's fkn OKAY that literally everyone around me has a job and are doing something. But if I am not feeling it, I'm not doing it. There is no point in living that way. Put that in your head and I'm gonna to do the same thing as well. The most important thing is, you have got to do what makes you happy and that's one of the hardest things to find. And I don't think anyone around me has found that yet. Everyone either doing it for money or because they've got no fkn choice.

YOU on the other hand, have a choice. USE IT WELL and please make choices only to make yourself HAPPY. Not your dad or brother or not even me for that matter. I know YOU GOT THIS.

Phew, a lot was said. There is one more thing, I don't think I can ever thank you enough for agreeing to keep MIA. I can't even tell you how happy I am because of that I know it's going to be hard, there'll be some days where you will not hurt anyone more than her (trust me, I've had my days) but there is going to be more days where you will be extremely thankful for her and those other days will cherish. Knowingly or unknowingly. She will change your life and make it much better than it already was. She has saved my life, I'm not even kidding. I owe it to her. I was in my worst possible state when this pup came into my life and she's help me through some horrible nights. I really hope she is there for you too and helps you out in any way possible. But please be ready to have some days where she'll get on your nerves. I'm sorry about this. I know you'll be able to handle it well.

Promise me, the next time I see you, will be happier person who is working on getting better every single day.

Just know that you will always have me and don't ever hesitate to tell me whatever it is that's bothering you, however, big or small it may be. I love you so fkn much and wherever I am or whatever I am doing, I will always be thinking of you.

Waiting to spend the rest of my life with you Gowtham. We are going to make it a beautiful one. Happy birthday my love.

-Yours one and only dumbass

I love you and I always will

Happy 23rd Gowtham
May this year be the best one so far

I can go on and on but I really got to stop boring you. That too on your birthday
